REASONS FOR ALLOWANCE

The amendment filed on November 20, 2006 has been entered. The specification and claims 16-29 have been amended. Claims 16-29 remain pending.

The replacement drawings received on November 20, 2006 overcome the objections set forth in the previous Office action. These drawings are acceptable.

The amendments to the claims are effective to overcome the rejection under 35 U.S.C. § 112, 2nd paragraph set forth in the previous Office action.

Claims 16-29 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or suggests a transmission shift system including a synchronizing device which can be actuated hydraulically and includes a piston, an idler wheel and a friction plate arranged in the manner specified in claim 16, in particular, wherein the piston is non-rotatably connected with a shaft and can mesh with the idler wheel, and the friction plate comprises a set of interior teeth provided for connection with the shaft.

Claims 17-29 each depend either directly or indirectly from claim 16 and are allowable for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
